2019 ANNUAL MEETING
Friday, March 1, 2019

**“Incorporating ‘Quality’
Periodontics into Comprehensive
Restorative Dentistry”**

with
Dr. Sam Low

LECTURE COURSE
Friday, March 1, 2019
7:45 a.m. – 5:15 p.m.
Hilton Garden Inn
8600 Northpark Drive, Johnston, IA 50131

HANDS-ON COURSE
Saturday, March 2, 2019
8 a.m. – 8 p.m.

Sunday, March 3, 2019
8 a.m. – 1 p.m.

Patterson Dental Supply
955 SE 29th Street
Grimes, IA 50111

SPEAKER
Dr. Sam Low

Dr. Sam Low provides dentists and dental hygienists with the tools needed for successfully managing the periodontal patient in general and periodontal practices.

As an associate faculty member of the L.D. Pankey Institute for 20 years and Professor Emeritus, University of Florida, College of Dentistry, Dr. Low's many years' experience training dental professionals is evident in his straightforward, informative, and entertaining teaching style.

Dr. Low's presentations focus on creating positive interactions between dentists, periodontists, and dental hygienists through communication skills and continuous quality improvement to enhance esthetics, tooth retention, and implant placement.

- Certificate in Periodontology
- 30 years of private practice experience in periodontics and implant placement
- Graduate of University of Texas Dental Branch at Houston
- Diplomate of the American Board of Periodontology
- Past President of the American Association of Periodontology
- Past President of the Florida Dental Association
- Former Trustee to the ADA
- Selected "Dentist of the Year" by the Florida Dental Association
- Selected Distinguished Alumnus by the University of Texas Dental School
- Recipient of the Gordon Christensen Lecturer Recognition Award
- Affiliated with the Florida Probe Corporation

Incorporating "Quality" Periodontics into Comprehensive Restorative Dentistry

LECTURE

FRIDAY, MARCH 1, 2019

8 hours AGD Perio Lecture credit – IDBE pending approval

Innovative Periodontics: "How to" from techniques to products. Want to utilize the Dental Hygienist's time more productively? Looking for a quality resource for "what's new" in dental products, systems and technology?

Periodontitis is a major reason for tooth loss and systemic complications. We create the user-friendly perio approach from patient acceptance scripting to chair side positive action. You will incorporate time tested and new technologies to find and manage periodontal disease. Take the frustration out of delivering periodontal care and gain success with patient case acceptance, tooth retention and financial reward.

Learning Objectives:

- Empower the dental hygienist with expanded work descriptions beyond the "prophy"
- Develop "realistic" non-surgical therapies and the respective re-evaluation with emphasis on "new" anti-inflammatory systems including micro-ultrasonics and laser technology, and nutraceuticals such as probiotics and anti-oxidants
- Determine the efficacy of utilizing various laser wavelengths in sulcular decontamination, degranulation, new attachment, and bone regeneration
- Review successful parameters to determine tooth survival in short and long term prognosis
- Establish a quality periodontal maintenance program that enhances the restorative practice, including third party reimbursement
- Achieve greater positive interaction between dentists and the team through improved communication skills

HANDS-ON TRAINING

SATURDAY AND SUNDAY – MARCH 2 & 3, 2019

16 hours CE/AGD Perio Participation Credit

By creating "hands-on" decision making situations, participants will have the opportunity to engage in actual patient cases.

Participation workshops will include the following:

- Utilize data collection to find and market periodontal care
- Introduce micro thin ultrasonic instrumentation for periodontal patients with emphasis of patient comfort and acceptance
- Collect data to determine case selection and choose appropriate surgical techniques
- Describe surgical techniques for restorative access including flap manipulation and suturing methodologies
- Review indications for mucogingival augmentation including attached gingivae and ridge anatomy
- Understand indications for using laser in crown lengthening and pre-orthodontic procedures including esthetics

PACE
ACADEMY of
GENERAL DENTISTRY
PROGRAM APPROVAL
FOR CONTINUING
EDUCATION

The AGD-Iowa is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry. The current term of approval extends from 1/1/2018 to 12/31/2021. ID# 219301

FAGD/MAGD Approved
1/1/2018 to 12/31/2021
